</table>
| Transport             | Legality of Possession and Transport | Transporters | Carriers must possess valid license documents:  
- Vehicle registration year and vehicle type,  
- Vehicle load capacity  
- Documents stating it is a company owned/contractor vessel or truck  
Two licenses are required as issued by the Transportation Agency and the Public Security Agency for each vessel or truck the company or individual operates.  
Organizations, individuals operating vessels or trucks for transporting forest products from the forest have relevant licenses |
| Transport             | Legality of Possession and Transport | Transporters | All logs have correct Forest Protection Department stamp (paint) markings that are legible. Cross reference markings with official word records.  
All logs transported from harvesting areas are marked with an official stamp |
| Transport             | Legality of Possession and Transport | Transporters | Transported logs are accompanied by the correct documentation:  
- Timber records correct to the MARD format  
- Documents to certify the origin of the timber supplied by the Forest Protection Dept.; or District FPD certificate for timber not subject to stamping; or Commune PC certificate for timber from plantations and scattered trees.  
The company should record the transport of logs to the processing facility using official documentation.  
Note: documentation is issued before logs leave the Forest Management Unit, or at the time of a state auction. |
| Transport             | Legality of Possession and Transport | Transporters – timber harvested in Vietnam | Papers required for legal transportation (and storage and processing) of domestic timber:  
- Sales invoice according to the regulations of the Ministry of Finance (for timber harvested by companies only)  
- Ex-warehousing-cum-internal transportation bills for internal transportation  
- Timber records (log list) according to the MARD format  
- Official Forest Protection Dept. record of timber stamping compatible with the timber consignment.  
The company should record the transport of logs to the processing facility using official documentation.  
Note: documentation is issued before logs leave the Forest Management Unit, or at the time of a state auction. |
| Transport             | Legality of Possession and Transport | Transporters – timber harvested outside Vietnam | Imported timber transportation papers should consist of the following:  
- Import declaration or certification from customs  
- Timber records/lists developed by the exporting country  
- Forest ranger stamps or their equivalent from the exporting country or, if absent, from Forest Protection Department office at point of import.  
Where imported timber is resold, Ministry of Finance sales invoices and original timber lists are also required; or if the consignment is divided, FPD-certified timber lists must be provided. |
| Transport             | Legality of Possession and Transport | Transporters of processed timber | Documents consist of:  
- Sales invoice as stipulated by the Ministry of Finance or ex-warehousing-cum-internal transportation bills for internal transportation  
- Wood record and Forest Protection Dept. stamp.  
Organizations transporting processed timber must carry the required documents in the vehicle of transportation |

| Processing           | Legality of Processing | Processors | Verify that the enterprise has the following documents:  
• Business registration certificate  
• Operating license  
• Import license  
• License to process commodities for foreign merchants (issued by Ministry of Trade). | The timber processing (and trading) facility has the requisite legal business registration certificate to operate, and license to process commodities for foreign merchants (if necessary). Business registration certificates are awarded by either the district People's Committee (for household businesses) or the provincial Department of Planning and Investment. |
| Processing           | Legality of Processing | Processors | The timber processing and trading facility has wood log books to record all wood entering or exiting the facility.  
The enterprise has sales contracts for each transaction in the supply chain to the processing facility. | Data on timber entering and exiting the facility must be recorded within one day of the transaction and the form of Log books are provided and guided by the district Forest Protection Dept. Sales invoices must be as stipulated by the Ministry of Finance. |
| Processing           | Payment of Fees and Royalties | Processors | Confirm that the company keeps log entries and product exit registries. | These are additional requirements for compliance with the Draft EU “Due Diligence Regulation”. This is compulsory for cases involving State agricultural enterprises and State forest enterprises. Note: for other companies this indicator is not compulsory, except where local authorities have attached conditions to the allocation of forest land under its jurisdiction. |
| All                  | Not Applicable       | All            | Check that the company maintains or strengthens socioeconomic welfare of local communities/indigenous people in accordance with the laws and regulations. Seek confirmation that:  
• The company has created jobs and/or income generation opportunities for local communities | These are additional requirements for compliance with the Draft EU “Due Diligence Regulation.” |
| Processing           | Not Applicable       | Processors    | Check that the company complies with the laws and regulations on its employees’ and workers’ rights and welfare. Seek confirmation that:  
• The company permits employees to join recognized labour unions and can demonstrate that it does not discriminate against labor union members when making employment decisions  
• When requested by a recognized labour union that represents its employees, the Company willingly enters into negotiations with that union and honors all agreements reached  
• The company pays employees’ salaries and provides them with benefits according to national regulations  
• The Company implements clearly defined safety procedures, maintains regulations on the responsible use of working materials and ensures labor sanitation prescribed national regulations  
• The Company ensures that all its employees are 15 years old or above | These are additional requirements for compliance with the Draft EU “Due Diligence Regulation” |
